THE BRITISH HOSPITAL

An appeal that will find an echo in every British heart has been made in the noblest of causes—that of charity, the 'alma mater' of suffering humanity and the touchstone of our better feelings. The Committee of the British Hospital interpets the true sentiments of all and the aspirations of the whole community by its opportune call on the proverbial Anglo-Saxon liberality, to rebuild the British Hospital and erect an establishment worthy of us and the old country we represent on these distant shores. Through these columns we call on our subscribers, whether Englishmen, Irishmen, Scotchmen, Americans; sheep-farmers, merchants bankers or clerks, to lend a helping hand to lay the bricks of the great work that will be a lasting monumment of our charity and a temple of relief to those of our countrymen who are stricken down by disease.

An appeal has never been made in vain to the English-speaking community; it has always fallen on prolific soil and been answered one hundred fold; all, without exception have contributed with pecuniary relief when philanthropy demanded it and suffering begged for it. This charitable liberality is one of the great redeeming points of modern times, and it is the brightest jewel in the crown of modern civilization. But the Committee of the Hospital have this time also applied to the right quarter—they have invoked the godess of charity—woman. This appeal to our fair readers is synonymous with an immediate acceptance of same, and we do not for one moment harbour a doubt that one and all will take needle and cotton in their fair fingers and throw the overwhelming balance of their charming industry into the bright fortunes of the projected bazaar. There is nothing more charming, more engaging and more enticing than these bric-a-bracs that so quickly and so easily emerge from the work of ladies' hands. There is an inexpressible charm about a cushion, a necessaire, a slipper, or a night cabe under these bazaar circumstances, and all these little things are so many precious stones in the eyes of the purchasers, who see their value doubled, trebled, as they think of the compassionate sentiments that inspired the patience of the work.

The French and German residents have held several very successful bazaars in the Coliseum and in the Elysee. The results of same show to the Committee what they may reasonably expect from the proposed bazaar: successive bazaars can be held as the works of the hospital advance and funds are needed. Furthermore, all should join in a crusade to make the British bazaar the most successful one ever held in the Plate, and we all know what Britishers can do when put to it; in fact we are in ignorance of our own strength and resources, and it requires some such thing as the building of a hospital to put us to the test and draw forth these characteristics. We for our part will promote the interests of the bazaar to the utmost of our power, and we call especially on ladies in the camp, who have so much leisure time, to contribute to the charitable purpose.

Fair readers! lay down for a while Ouida, Florence Marryat and Wilkie Collins: take up your crochet needle and think that with every stitch you are linking the fortunes of the bazaar, and that with every piece of embroidery you soothe the sufferings of some poor agonizing countrymen. The Hospital Committee have deposited the fortunes of the hospital in your fair hands, and it remains for you to crown their anticipations.

LONDON LETTER.

(From our Own Correspondent)

November 11.

The Bank reserve is a trifle stronger, and discounts in the open market are quite 1½ to 1¾ lower than the Bank rate. Still, a too optimist opinion of the immediate future is not safe. The Paris and other Continental Exchanges may have tided over their present difficulties, but their well-known state is too deplorable and they are too much in the hands of reckless speculators not to cause uneasiness. Italy is still a potential drain on this market. At present, like Germany in a similar position a year or two ago, she holds back when she finds her drafts pressing too hard on this central deposit. So long as a temporary drain on England, either in America or on the Continent is in the hands of Government Banks and large financiers, it is to their interest to regulate their transactions carefully, but when the drain comes from the fever of railway speculation, which is now in progress in the United States, it is no longer a question of Bank reserves but of all kinds of available securities which come tumbling down.

The city editor of the *Times* complains that theoretical economists smile at the excitement caused in business circles by the announcement of the departure of a few thousands more or less of specie. The economists, of course, are not interested in the temporary 'screw,' which is all in all to the merchant. They look to other causes, either to the absolute scarcity of metallic currency or some sudden shock to general credit. What slight stringency has been experienced in London this season has been purely a question of bank management or mismanagement. It is always too late, and for three or four years past it is notorious that as soon as the Bank puts up its rate the discount houses are perfectly prepared, and they immediately attract custom by underbidding at rates they could in truth have afforded before, a proof that the pressure was to some extent artificial. That a strain on our resources, and not by any means artificial, may arrive before long is quite possible, considering the kind of speculation going on on the Continent and the amount of capital, at least 100 millions, for the present sunk in railway extensions in America. However, the fact that Consols are still firm, is the best proof that the prevailing opinion is in favour of cheap money.

Whilst on business subjects, let me mention that the *Daily News* accounts for the increase in our exports, shown in the monthly Board of Trade returns, by augmented exports to the Argentine Confederation; and it attributes that increase to the loan and the maintained credit of that country. As for recently-launched Argentine projects, they figure in the advertizement sheet of the *Times* as going concerns, and beyond that there is nothing to be said on this side. Argentine Securities are steady at late recoveries in price.

The Tadpole and Tapers of West End politics were thrown into consternation by the rumours that the Duchess of Bedford was about to resign her position at court. It was added, that no Duchess who had any self-respect or respect for her order could remain at court with a Mr. Chamberlain in the Cabinet. The 'canard' has been authoritatively dissipated by the *Daily News*; but it is quite possible that there is a little soreness in grand circles at the advance of Radicalism. The *Times*, on its part, has continued its crusade against the exclusiveness of the Horse-Guards and the non professional caste which still pretends to officer our troops. I think I lately attributed its articles to official inspiration. It is now pretty certain that the information came from Sir Garnet Wolseley, and with almost unseemly gusto the *Times* announces that Sir Garnet is to succeed Sir Charles Ellice as Adjutant-General, and it takes care to inform us that although the Adjutant-General as an officer is subordinate to the Commander-in-Chief, he serves more directly the Queen and the War-Office, and

is, in fact, a greater personage in many respects than the Duke of Cambridge. This long-existing battle, well known in the service but not made public, is now too far advanced not to draw attention and be ultimately settled, to the great chagrin of the Dundrearies but to the very great benefit of the army.

Either the manager of the *Times* is out of town, or at last he gives in on the Land Question, for to-day an article on 'Life Tenancies,' another word for settlements and entails, concludes in this wise—'The owners are not the only or even the chief sufferers at such a time as this, for they only head the list of the many dependent on the proper management of the land. The whole nation is interested in delivering it from the sort of bondage into which and and its occupants are frequently thrown. While capital is so absolutely free, land should not be tied a thousand ways, of which these large clerical glebes are but a sample.'

Could your correspondent, or any other screeching Radical, say anything more definite or subversive on the Land Question than that? I verily believe that Mr. Gladstone himself was not prepared for the prompt and startling results now occurring of his Irish Land Act. The land-owners are, no doubt about it, grievous sufferers. The lamentations of baron and squire in the papers are really heart-rending. Subscriptions are already in process for ladies dependent on Irish rents, which are or will be reduced perhaps 50 per cent. when they get them: in some instances, they are without any. They, as well as their enemies, the Land Leaguers, through Mr. Hugh O'Donnell, who writes to the *Times*, throw in the face of Mr. Gladstone his former consoling statement that his Land Act 'would not materially lessen rents.' How much, in certain instances, that measure may tend to reduce rents you can judge from the following statement of judicial decisions taken from to-day's *Times*. I leave out names and other particulars, and take only part of the cases:—

Rateable ann. value	Rent 1866-1881	Judicial Rents
£ 6 — —	£ 9 4 4	£ 6 8 9
45 15 —	50 — —	36 12 4
23 — —	38 9 6	20 13 11
15 15 —	32 17 —	16 11 2
41 15 —	60 — —	48 3 5
20 — —	32 15 4	24 16 5
53 10 —	65 6 4	50 2 11

From the whole number even of these cases, which are not the worst, the nett result is this, that the land has been rented 65 per cent. over the tenement valuation: and that even this so-called 'plundering' judicial rental is 22 per cent. over the tenement valuation!

Now the tears of ladies and of lords will find response even in the heart of a Radical; but one might say to them, 'surely if you suffer you have made others suffer and have had your innings. If Mr. Gladstone told you rents would not be reduced, he meant and hoped that the majority of Irish landlords were good landlords, and in their case there will be no material reduction. It is plain that if in the days of good Queen Bess, if our English hero, Sir W. Raleigh and the poet Spenser, the Irish were treated infamously, and if rents, in money, labour or kind were torn from them at the point of the sword, in these happier days of Leitrims and kinder Liffords unfair rents have been exacted from virtually helpless men by 'the resources of civilisation,' as Mr. O'Donnell might maliciously suggest.

The working of the new Land Commission is the most remarkable in the county Mayo, the very nest of Land Leaguers. The tenantry there have, as elsewhere, taken the wise advice of their priests in preference to that of the moribund League, and are coming in crowds to the courts. Mr. Parnell, in his I hope very temporary retirement, must see that however much Ireland and all of us are in some respects indebted to him' he at the end lost his balance and pushed hi spoliey perversely.

EDITOR'S TABLE.

The Royal Mail Steamer Derwent sails this afternoon. Mail bags close at the General Post Office at 1 o'clock.

We are glad to announce that our highly esteemed countryman and colleague, Dean Monsignor Dillon, was to have left England on 28th ult. in R.M.S. Mondego, so his numerous friends may expect to see him in a few days.

Minister Hurlbut is making the most of his time in Lima before he is recalled. He has issued another note, to the Notables of Lima, in the same strain as his famous one to Admiral Lynch, and couched in such terms that the hair of the whole Diplomatic Corps stood on end when they read it. Pierola has resigned and given up the game, which simplifies matters a little. Mr Blaine's son is the new Minister in Chile.

An account of the rattlesnake supper on board the Elbe will be found in our Supplement. It is well calculated to destroy all appetite for breakfast, so we advise a postponement of its perusal till after that meal.

The rain on Sunday was of the true tropical kind and did a deal of good. The morning was so insufferably hot and close that everybody felt apoplectically inclined, and the 'agua' was an intense relief. We hear the downpour was not general, and that there was none farther out than Ramos Mejia. In the city the streets were inundated for half an hour or so. It must have rained heavily somewhere on Sunday night, as the temperature was agreeably cool yesterday. By the way, to-morrow will be the first day of summer and the longest day in the year this side of the Line.

Count Amelot de Challou, French Minister, has rented Mr Octavio Rossi's fine house and 'chacra' at Saavedra. It is a charming summer residence, on the banks of the Arroyo Medrano.

The Spaniards in Chascomus intend going in for a three days "Romeria" at Christmas. The programme would fill three columns of the *Standard* and includes every Spanish game and dance and every good thing under the sun—except plum-pudding, which the Dons will learn how to make when they get back Gibraltar, and not till then.

Talking of Christmas reminds us that 'mine host' of Belgrano seems determined to draw the whole city to his famous hostelry on Sunday next. Just read his advertizement, and your mouth will become like Niagara in the watering way.

There is nothing fresh from Montevideo. The revelations of Mr Herrera y Obes have fallen flat and only proved a nine days wonder.

Mr Dawney's warning letter in reference to the poisoning of the Pipe Water has attracted immense attention from the public, and it is to be hoped that the authorities will see to it at once ere it be too late. Mr Dawney stands high amongst us in sanitary matters and would not needlessly alarm the public. There is not a second to be lost in rectifying the stupendous mistake made.

There was a final hitch on Saturday in reference to the sailing of the Cabo de Hornos. Fourteen of the crew were found to be lubbers of the first water and not worth their salt, so men to fill their places had to be obained. This job took till 12½ p.m. on Sunday, when the vessel at last got under weigh for Montevideo.

The 'altura de los edificios' imbroglio is not settled yet, Minister del Viso will arrange it all by decree next week.

The Niger's mails were delivered yesterday morning, but she brings no later English papers than the Buenos Aireas; we published the news last week.

An unfortunate madman was arrested and locked up on Sunday. The poor creature says continually 'I have chilblains on the brain.'

The closing exercises of the year at Holy Cross College, 595 Calle Corrientes, of which the talented Dr Grace is Director, will come off on Thursday next, 22nd, at 2 p.m. We have been favoured with an invitation, but at the hour named we are generally up to our eyes in business.

The West Coast telegrams show that the conquering Chilians are proceeding with a high hand in Lima. They have now seized the General Post Office there, and concentrated troops from Tarapaca in Callao. Perhaps they are going to annex Lima itself as well as Tarapaca.

Bravo! The President of the Municipality has ordered a medal and $2000 m|c to be given to the sailor Leiva who saved two little children from drowning last week, at the imminent risk of his life.

'Where and oh! where has the S.P.C.A. gone!' The cases of cruelty to horses, bullocks etc. in our streets are increasing daily, yet no officials of the Society, about which we have heard so much, have as yet appeared in public. The treatment of the poor horses and bullocks in this hot weather, when they tire sooner and are unable to do their usual work, is awful to behold. We have a strong suspicion that most of the cart horses and bullocks in town are underfed, as great or a greater cruelty than beating them. We remonstrated on Sunday with a savage who was pounding away with the butt of his whip at a half starved horse, who could not pull a cart through a 'pantano' into which he had stupidly driven it. The fellow's reply was that the horse 'no quiere trabajar!' We inwardly wished that we had the ruffian in London or New York. The sooner the new Society begins business the better.

In spite of the rumours about small pox, scarlatina, etc being rife at Montevideo, many Buenos Ayres families are already installed there for the bathing season.

There will be an extra performance at the Variedades Theatre on Christmas night, for the benefit of M Rebelly. 'Robert Macaire' will be the play, and 'Las Noces de Jeannette after. Usual prices.

Madame Tessero achieved a great triumph on Saturday night in Sor Teresa. She is quite equal to Ristori in this role.

M. Guillaume, Director of the famous Circus, is at death's door. Last night the doctors in attendance gave him over.

Everbody and all the newspapers are talking of Charpentier's new restaurant at the corner of Cuyo and Florida. It is a 'bijou,' and the cuisine is the best in the city, the 'bleu' being a top Soyer.

Hurrah! Congress will positively close on the 31st inst. Many Congressmen are already packing their trunks, but a good few have determined to stay and attend the opening of the Continental Exhibition which is to be the grandest affair ever attempted this side of the Equator.

The 'Social Club' at Belgrano 'receives' every Saturday during the summer season.

Mr F P Hansen, the courteous Chief of the third Division of the Post Office, has favoured us with a copy of the new rates of postage for city and suburban letters, which show a reduction on previous ones.

Mr John J Pitt has offered to provide Gualeguaychu with gas for £50,000.

'No quorum' at the Health Board at its last meeting. Very nice indeed, considering the awful state of the Riachuelo, the blunder about the pipe water etc. The citizens may have to 'pay the piper' later on.

Persons who paid their Contribucion Directa in July last, with a fine, will have the amount of the latter returned to them on presenting their receipts at the Direccion General de Rentas.

The news from the Rio Negro is good. The Indians, it is said, have disappeared. There are 100 men at Fort Argentino, and 17 of them lately scoured the banks of the river to Choel-e-Choel, without meeting any savages, They suffered fearfully from heat and thirst, and one of them, whose horse died under him, was left on the road. He had barely lost sight of his comrades when three Indians appeared. Weak as he was, he seized his rifle and shot two of the savages dead; the third fled: he then seized the Indians' horses and managed to reach F. Argentine. The appearance of the three Indians so soon after the main body had left the poor trooperon the road by himself is not confirmatory of the 'on dit' as to the disappearance of the Indians, whose Phœnix like capacity for rising from their ashes is something astonishing. The Indians have 'disappeared', received 'buenas lecciones' and been 'aniquilados' as often as we have hairs on our head, yet every new moon shows them there are still, as fresh as paint.

Madame Borghi-Mamo, Tamagno, and the whole Ferrari opera company have returned from Rio to sing at the Continental Exhibition. Other artists are coming from Italy to reinforce the company.

The Wax Works which were exhibited here some five years ago will be opened again in the first week of January, enlarged and improved, in the same locale in Calle Corrientes.

FLAX *versus* COTTON.

Fo the Editor of the *Standard*.

Dear Sir

Mr Beaumont in an article, published in yours lately, states there is nothing like leather, and then after he says he shall stick to his feathers; while Mr Forrester by obtaining 60,000 m|c profit from each square of flax grown, naturally will stick to his flax, while you Mr Editor have been cramming all the readers of the *Standard* with this vegetable fibre. I propose another, far more suitable to this country, viz, the cotton plant—Gossypium Herbaceum.—In cool climates it is an annual plant, in warm climates it lasts two or three years, and in some cases six to ten years. Now Sir this is just the plant for a non-agricultural country, growing some years with scarcely any trouble. The progress of the cotton manufacture in England is one of the marvels of the age, and the vast amount of capital and labour now employed leads us naturally to rank the cotton plant among the most valuable and important vegetable substances with which the earth is bountifully furnished. To appreciate in some degree the importance of such it is only necessary to bear in mind that the declared value of our exports in cotton goods amounted in 1849 to nearly 27 millions pounds sterling, while the quantity retained for home consumption exceeded 10 millions, while in 1760 it only amounted to about 200,000 pounds and at that period and for 30 years afterwards North America did not supply England with a single bale of cotton. We in England receive raw cotton from the East Indies and return it manufactured, and almost all nations on the face of the globe use our printed cotton goods. In the factories of Manchester provision is made for the wants of the inhabitants of various climates and for races uncivilized as well as civilized. The cotton dress of the African chief or the Chinese citizen is supplied in common with the working dress of our mechanics and their families or even the delicate muslin robes of Royalty. Our Manchester handicrafts are seen in almost every rancho in the Argentine Republic and I have seen them girding the loins of exceedingly fine Patagonian chiefs daughters. I also have exchanged such Manchester prints &c. for skins from Tierra del Fuego and say again Mr. E. Cotton is far better than leather, or feathers, or its rival flax. The cotton plant is not indigenous to England nor confined to her colnies, but is obtained from other nations, and this is a a powerful argument in favour of free intercourse among nations of the earth by which an interchange of productions enables them effectually and thus extensively to help one another and to their mutual good. More than four fifths of the cotton brought into Great Britain is from the Southern part of the U. States of America, where millions of persons are employed through its cultivation, and the production exceeds the produce of the whole rest of the world. It also flourishes well in India, China, and why should it not, Mr. Editor, flourish here?

There are many varieties of the 'Gossypium yielding cotton fit for the manufacturer. It is a member of order the Malvaceae, which contains our common Mallow and it is not much unlike the Mallow. It has the same herbaceous character, the same structure of the blossoms, which in some varieties are simple like the mallow, and in others yellow or pale straw colour, but there is a great difference in the seed vessels inasmuch as from the surface of the seed coat in the cotton plant there springs up a thick growth of vegetable hairs, or filaments of considerable length, filling the seed pod, and at last bursting it and exhibiting a ball of snowy white or yellowish down consisting of three locks, one for each cell and enclosing and firmly adhering to the seeds, which resemble grapes in size and shape

The crop is a very beautiful one when the pods are progressively opening, the fine dark green of the leaf contrasting with the brilliant white of the cotton suspended from the pods and floating to and fro with the wind. It is about the size of an ordinary currant bush, and in the hottest countries it becomes perennial and furnishes 2 crops in a year, other varieties of cotton trees I will with this pass over for the present, being of another family.

The true cotton plants are cultivated "on a light sandy soil and in situations where other plants rarely flourish, in the vicinity of the Sea and in what is generally considered very bad land". The saline breezes evidently favour its growth and the American sea island cotton which is cultivated on the low sandy islands from Charlestown to Savannah has long been celebrated for its long fibre and its strong and silky texture. They cultivate 3 varieties, the first from its Yellow colour called Nauken Cotton, the second Green seed Cotton, and the third Sea Island Cotton.

Evidently, Mr Editor, here is a plant eminently suitable to cultivate on the light sandy soils of Patagonia in the vicinity of the sea and upon land most decidedly bad for ordinary agricultural crops, and I claim this first notice as original, and advise my Chubut friends to cultivate these cotton plants upon their sandy soils that are now useless. The whole coast of Patagonia is well adapted for its growth, and by this means San Blas may became notorious, and the crops would not hold out the same advantages to the Indians as beef &c. does at present. It also would improve the soil, so that eventually these barren waste tracts of country may in some future generation become valuable to the Argentine Republic. In 1792 the United States exported only 138,328 lbs. of cotton, in 1844 it amounted to 517,218,622 lbs., and at the present time some 940,000,000 lbs., and the supply is not quite equal to the demand. If the American cotton crop failed, our English mills and machinery would stand idle, and our operatives be deprived of bread, and our manufacturers are on the look out for colonies in Hindostan, Australia, West Indies. I anticipate an account of the manipulation of the cotton plant into the thousand and one different articles of manufacture is not required in this letter; in case you wish for it, it is at your service.

Yours,

C. E. S.

There is scarcely anything doing in the gold market; no cash sales, and only 30,000 pats at 25.05 bought for end of month. The gold business on the Bolsa is approaching to a final close, and all operations will be mainly limited to time sales, as has been observed generally throughout the last fortnight. The business up the rivers always calls for some gold for the saladeros, but strange to say the demand for specie as evidenced by the gold market is not at all strong.

In Cedulas only one sale in Series E took place, 10,000 pats, at 82. In Series A nothing whatever was done and we may quote same, to judge by the tenor of the market, at 99½.

To-day was a field day in the National Bank Share market; no less than 4,647 shares were sold during official hours. The liveliness of the market shows more confidence in buyers and sellers. The stock is firm and rising. The sales for cash were unusually heavy, fluctuating at 118, 118½-¾, and closing at 119 firm. Sales for end of month were stiffer, and we note one small sale at 120 whilst the bulk of operations was done at 119 and 119½. The feeling in the market is a strong one, and the tendency is very firm, and the shares bid fair for their old quotations.

In exchange very little was done and the rates are the same.

The sales at the ring were—

Eight leagues from Bahia Blanca, 1½ league of land were sold by order of the Provincial Government at the magnificant price of 329,400 m|c per league. Let this price not astonish people, for few know what is going on down there. There are at present over 60 new houses being built in the town, and the bricks lie idle for want of peones, who are paid from 45 to 50 m|c per day; the Government might send down 1,000 immigrants to the Bahia Blanca, and they would find immediate employment, such is the scarcity of hands. The troops are cantoned in the town, and their discipline is of the severest kind; they only wait for horses to scour the camp. Few know how Bahia Blanca is pushing ahead in every sense; the the port is being studied by the officers of the Bermejo whilst the Indian scare is over owing to the presence of the first battalion of the line; meantime the second regiment of cavalry is expected; in the Fuerte Argentino there are 100 soldiers, and 17 troopers were ordered to gallop over all the neighbouring camps under command of lieutenant Boer; they did their duty well and actually rode down to Choel-e-choel. The small steamer Bahia Blanca in the port is full and there is so much produce that in Bahia Blancas to could be filled. In face of such facts it is not to be wondered at if the land sold by the Provincial Government fetched such a very high price.

Mr Mendez was welcomed on 'Change and enveloped in friends on his return from the South, he reports Bahia Blanca in a most flourishing condition and everything progressing down at Fuerte Argentino and the Sauce Chico.

The arrivals in the Once are large, and many fine wools have been sent in: it is remarked in general that the wools in the South are finer and lighter; the best wools this year come from Juarez, Saladillo, Tapalquen, 25 de Mayo and 9 de Julio. The pasto fuerte kinds are always in demand, but inferior kinds are neglected.

A fine lot of wool was sold this morning without bellies, from the Saladillo at 92 m|c.

The purchase of wool we referred to above in the South Plaza, was made by a gentleman barraquero at 103 m|c.

The excess of export in bales under the present date as compared with last year represents an excess of 18,000 bales, which shows the great activity of the market.

Telegrams were received to-day announcing the failure of a well-known and recently started wool firm in Roubaix, France.

There are eight vessels loading lino in different ports of the Republic; these cargoes answers sales 'a descubierta.' Some French firms made very heavy contracts in flax at the beginning of the season at 33 francs per 100 kilos, the prices fell to 32 francs, when further contracts were made: in order to meet these compromisos we see the present brisk business in the article, there is nothing like leather and flax.

One hundred pipes of tallow from Messrs Rocca's establishment have been sold at 13 rls.

This week the surveys of the railway to Bahia Blanca begin, and the engineers will study the route between Azul and Olavarria. Fortunate those who bought camps in the Sauce Chico.

The death of Mr Wilhelm Günther, the well known broker, spread a gloom in the large circle of friends he had on the Bolsa. Deceased was one of the most esteemed and most eminent German residents in the R. Plate. He was formerly partner in the firm of Rosen Hoppmann & Co. Heart disease carried him off; he married a Miss Alcorta, and was well known and much liked in foreign and native circles.

387 novillos, 2½ years old, from Magdalena for saladero sold by E Bonifacio at 380 m|c per head.

A cablegram announces the suspension of a sheepskin firm in the South of France.

Advices by the Niger in reference to wool report a favorable feeling in England, but depressing anticipations on the Continent in general, which account for the hesitating attitude of our leading artistas. In Italy especialy the wool market is anything but promising.

Messrs M Forrester & Co. sold to Mr Lix Klett a very fine machine for the flax industry which is yielding the most satisfactory results. Our flax friends will know where to apply for flax machinery.

At after hours a good deal of business was done in National Bank Shares; the stock rose gradually to 120, closing buyers at that rate. The Italian king entered the market and bought freely. The market is very firm and a large number of shares changed hands.

Messrs Schwartz & Co, of the Casa Amarilla, are building several steamers for the river service; they have also on the stocks eleven small steam launches. The orders for mills, especially for water mills in the interior provinces of the Republic are very numerous.

The Bank discounted to-day four millions currency.

Mr John Moore's wool, which was purchased in the camp was sold to-day at 97 per arroba. The lot is one of the finest that has arrived in the Plaza.

The corralon in the Calle Libertad, between Juncal and Arcaules, put up for auction, upset price 125,000 m|c was sold to-day for 525,000 m|c.

The Lamport and Holt steamer Horrox sails on the 23d, she takes from
B. Aires—2000 bales
Montevideo—300 bales.

The Lamport and Holt steamer Sirius takes from this port 2000 bales, and will load 700 more in Montevideo.

The Rubens will sail on the 23d, she takes:
From B. Aires and Rivers 2500 bales
From Montevideo 200 bales.

The Pliny arrived to-day and will load in the Parana.

Mr Nordenholtz was welcomed on Change, on his return from the Banda Oriental, he reports camps about Dolores in splendid condition and animals fat.

Mr E. Casey made the following sales to-day—
1,200 ar wool at 97
1,200 ar do 86
400 ar do 90
700 ar do 80

Mr Tornquist was welcomed on Change to-day on his return from Bahia Blanca.

We hear that most of the flax plantations of the Bombay seed have failed; about 12,000 squares of flax useless. We call the attention of flax growers to the fact.

The purchases of wool by the German barraqueros in the South Plaza are attracting much attention, inasmuch as the prices paid in the South are much higher than those of the Once. This morning one party bought a lot of pasto fuerte wool in the South at 85; the price naturally was much discussed. This while the French 'artistas' are daily drawing back the German barraqueros enter the market and sweap off all the Once wools.

The English schooner H.F.M.B, Juvenis of Guernsey was spoken on Dec. 13th off Cape St. Mary, all well.

Our Boca correspondent gives as follows:—
The following is a list of foreign fleet at present anchored in the Boca:—
Wawalench, Cora, Elsine, Virgo Maria, Bessie Simpson, Dis Gartenlaube, Hormanos, Queen Victoria, Screamer, Celina, William Smeed, Western Belle, C W Halls, Ross, Pensativo San Rafael, Neva, Apoll, Lorelei, Borgerhout, Graf Eulemberg, Jane, Toronato, Henry Warner, Henry T Wing, Cupid, B W Merriam, Olga, Fried-ricke, Jose Ginebra, Cecilia, San Miguel Arcangel, Figaro, Peggy, Zurich, Cecilia, Firence, Carlota, Diana, H L Chadwick, Onward.

The fauna in the Banda Oriental is progressing; the following are the figures of animals slaughtered up to the 15th instant:—

	Head cattle.
Fauiet	2,921
Pitayerus	3,268
Legrand	3,063
Herrera	11,624
Auturquin	1,250
Denis	3,576
	25,802

A colleague states that in Sta. Fe there are 108,000 squares of land under wheat, and that calculating the yield at 6 fanegas per square, the crop will give 648,000 fanegas. We should have thought these figures low, to judge by the great increase in the plantations this year, owing to the many new lands bought up for the purpose. The crop, should these figures be correct, would only amount to a monetary value of a little over 3,000,000 pats, calculating the population of the colonies at 60,000; this would average a production of 50 pats per head. We believe the figures to be quite incorrect.

The following are our latest Montevidean advices:—

"The export market is calm; the following sales are reported:—
1000 dry hides at 59 rls.
500 do at 59½ rls.
2000 salt hides from Legrand's saladero at 73½ rls., weight 68 lbs.
2000 do at 73½ rls.; 67 lbs. at 72½ rls.
200 bordalesas tallow at 16½ rls
4000 ar. wool of Messrs Guma & Valdez at reserved rates.
2000 do from Barraca Argentina, terms reserved.

"Messrs Oliver & Co. have published the following list of sales of jerked beef during the fortnight:—
Montevideo and B. Aires—15,000 qq. from Ensenada, viz: 10,000 Brazil at 60 rls. fuertes la buena gordura y gorda, 54 rls. frs. la bonita (15-20 o/o), and 5,000 Habana at 53 rls. frs.

5,000 qq. from Magdalena for Habana at at 54 rls. frs.

"The above sales of jerked beef are contracts for the end of January as regards Brazilian kinds, and for the 30th of February as regards Cuban orders."

We have been favored by Messrs Baltar and Quesada with a small book on Merino rams by S Bernardin. We recommend the work to the sheepfarmers in the camp.

We see in our London exchanges that the East Argentine Railway Co. has declared a dividend of 5s per share, free of income tax.

The extension works of the Andine Railway are steadily advancing, and it is expected that the rails will reach the city of San Luis next fortnight. This is the very best news for the Interior, and Mendoza is the next anxious candidate for the terminus of the line. Next year we may expect to see the products of the Cuyo provinces arriving daily in B. Aires.

It is reportrd that the Provincial Government has let to a private party thirty chacra lots in Olavarria at 9,000 m|c per league per annum; there are "puesteros" who pay 15,000 m|c per annum in the North for a few hundred squares of land.

In Patagones five hundred cows have been sold at 300 m|c per head.

The Villarino has not left Patagones yet, as she has been unable to cross the bar since Saturday; she is expected to pass to-morrow.

Orpheus McLean, of the Buenos Ayrean, was welcomed on Change to-day; also Mr. Stout, from Glasgow, who has come out to visit the country.

Sr. Jorge is expected here at the end of the month.

VENTA DE OPORTUNIDAD
El Remate se efectuara
En nuestra casa
51—San Martin—51
Donde se daran planos y todas las informaciones sobre esta gran venta.
BASE DE VENTA:
$ 80,000 por legua
El Viernes 23 de Diciembre
a las 3 de la tarde

Procederemos a vender los campos arriba mencionados situados al sud de Cordoba, conocidos por las 'Averias' e inmediatos a los campos de 'La Carlota' y situados al sud de ella.

El campo que ofrecemos en venta ha sido mensurado y amojonado con mojones de hierro y madera y es segun opinion, de primera calidad su proximidad a la provincia de Buenos Aires se nota facilmente, con la revisacion de los planos que se enseñaran a los interesados, a quien se les dara igualmente un plano general de las fracciones a vender.

Recordaremos a los que en ellos pueden interesarse que el Ferro-Carril Andino [Concession Clark] es ya un hecho, segun consta de los telegramas europeos publicados en todos los diarios, para dos leguas mas o menos de estas magnificas tierras, toda ella vegetal.

Muchisimas lagunas se encuentran en esta inmensa zona de fertilisimo campo, e inmensurables cañadones le cruzan en todas direcciones, el agua se halla a 2½ varas.

La red de Ferro-Carriles, que ligara las provincias Argentinas se ve ya como un hecho y segun informes, uno de estos Ferro-Carriles debera partir de la estacion Villa Maria del Ferro-Carril Argentino y se unira a la concession Clark y este al Ferro Carril del Oeste.

Si los compradores unifican estos datos de progreso a la bondad de estos campos ellos verán cuan infima es la base fijada, mayormente si se tiene en cuenta la venta efectuada por el Gobierno de la Nacion de los campos situados en el limite Norte de la Provincia de Cordoba hace apenas unos dias y cuyos precios variaron desde 1,000 a 3,000 $ legua.

La situacion pues de las tierras que ofrecemos en venta, y para la cual llamamos la atencion de nuestros amigos es de un porvenir inmediato y positivo relativamente a los anteriores.

Por mas informes ocurrir a nuestra casa, 51 San Martin.

Procederemos a vender por orden y cuenta de su dueno, un lindo y selecto lote de toros Durham, ¼ y ½ sangre, procedentes del Establecimiento San Mariano situada en el partido de Matanzas, fundado por el malogrado Señor Don Juan Ignacio Escurra.

Los productos de este establecimiento gozaban de justa fama entre los criadores, pues los animales eran ya notables, es ademas sabido que el Sr Escurra, sobre la base de hermosas vacas de origen de Alfaro y Tapiales, han adquirido toros puros, los mas notables de los importados al pais, tal es pues, el origen del unico lote de toros que ofrecemos en venta, y ellos seran fraccionados en lotes pequeños, á fin de ponerlos al alcance de todos.

Los trenes salen de la estacion del Parque a las 5, 6.35 y 12 de la manana.

Pueden verse cualquier dia en el establecimiento San Mariano, y tres dias antes del remate en La Cabaña de los Sres Amaral e hijos.

DE
BAHIA BLANCA
Los Manantiales y Nueva Roma
12 leguas cuads.
Magnificos pastos y aguadas permanentes
A 2½ leguas del puerto
BASE DE VENTA
Ps. 150,000 Legua
En nuestra casa
78—— ALSINA——78
El Jueves 19 de Enero
A las 3 p.m.

Remataremos a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exajeracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad; campos poblados hace area de 31 años.

Los Manantiales—(Plano A)

LOTE No. 1—Una suerte de estancia o sean ¼ legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Claraz; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.

LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Srs C Heusser Arce y Chautini; por el N. Este con el lote num. 3, y por el S. Oeste con Cuquet, Bajo Hondo y el Estado, tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre: las poblaciones son: sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.

La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro; a mas dos puestos construidos con los mismos materiales que estos ultimos.

LOTE No. 3°—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo; tiene tambien una laguna 'Los Salados', una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro.

El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Esquinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 538 cua. cs.

La calidad de la tierra es en todas partes vegetal, arenosa, hasta una profundidad que varia entre media y tres cuartas vs. pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.

Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.

Ademas, se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.

Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y macadien, predominando en un 80 o/o el trevol, alfilerillo, pasto duro y cola de zorro.

Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan pasa el consumo.

Nueva Roma—(Plano B)

Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal y Francisco Ceico, por el S E. Francisco D Bozzaur, por el N O los mismos Juan y S Vidal y por el S.O. el Sauce Chico, dista este campo del Esquinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.

PASTOS—Estos son en general cola de zorro pastos duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y Saladillo, Lazaga y Garcia, con gran abundancia el trevol de olor, alfilerillo, mostaza y te pampa Este terreno es apropiado por su mayor estension a la cria del ganado vacuno.

Calidad de la tierra: es semejante a la de los Manantiales y se nota tambien claramente la fecundidad de ella.

AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.

Los verticales, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.

La venta de esta fraccion se hara de la manera siguiente—

Lote No. 4—Compuesto de una y media legua cuadrada.

Lote No. 5—Una suerte de estancia o sean tres cuartas leguas con opcion a los Lotes No. 6, y 7, cada lote de ½ leguas.

Creemos de nuestro deber llamar la atencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.

Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campana Sud de lo Provincia.

El flete dado alli al riachuelo vale unicamente $3 por arb. de lana y enfardilada la mitad.

Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, que estos campos en pocos anos valdran de $600 a 800,000 la legua.

Por planos e informes impresos, ocurran a nuestra casa Alsina 78, desde el 20 del corr. en adelante.

Base de Venta
600 Ps. cuadra
En el mismo campo
1570 a 1800 ovejas, caballos, cereales, etc.
El Sabado 24 de Diciembre
A las 4 de la tarde

Remataremos con la base arriba fijada y plazos que se estipularan en el acto de la venta, por orden de su propietario, este magnifico campo arriba mencionado, compuesto de diez cuadras de frente al Rio de la Plata por 60 cuadras de fondo, todo alambrado con postes y medios postes de ñandubay a 3 y 10 varas de distancia, con 5 hilos alambre de patente; tiene 2 poblaciones de quincho con casillas de madera, una techo de fierro de canaleta y otra teja francesa, pozo, quinta y tres cuadras sembradas de maiz y algunos arboles frutales.

Dista dos leguas de la Magdalena y doce cuadras de los Saladeros y magnifico puerto de la Atalaya.

Este campo puede facilmente producir un arrendamiento de 160 a 180,000 $ anualmente. pues es sabido que se paga desde 250 a 300 ps. cuadra al año para agricultura y para invernada de animales mas o menos, o lo mismo y lo prueba que actualmente hay en el campo de 70 a 80 caballos de la Empresa de Diligencias que pagan 1800 ps. mensuales.

El propietario no ha querido hacer contratas, porque tenia la idea de vender y las contratas suelen ser un gran inconveniente para la venta.

Ademas de las 600 cuadras, hay sobre la margen del Rio de la Plata 100 cuadras cuadradas mas o menos, bajo alambrado, de cuyo usufructo puede gozar el comprador de aquella area y que se puede aprovechar para muchas cosas.

En cuanto a la calidad del campo es de lo mejor de la Provincia y sus pastos todos tiernos con gramilla, trevol de olor y comun, cola de zorro, alfilerillo, flor morada, cardo asnal y castilla, como lo podran ver los que quieran visitar el campo para cuyo objeto no tienen mas que tomar las diligencias que salen de la Ensenada para la Magdalena, que los dejara en el mismo campo en la ultima posta del alambrado, donde hallaran al propietario qur les enseñara todo el campo.

La venta se hara en lotes de 100 cuadras cuadradas o en un solo lote, pues la figura regular del campo se presta para ello.

Inutil nos parece llamar mas la atencion de los interesados sobre esta brillante propiedad.

Los campos de la Magdalena tienen fama en toda la Provincia y son rivales de nuestros mejores campos del norte, ademas no hay que olvidar que la proximidad del pueblo de la Atalaya, para el embarque de los frutos y consiguientemente flete barato, es un punto muy importante que no hay que despreciar.

Con todas estas ventajas la base de 600 ps. cuadra es muy modica.

Al mismo tiempo.

1500 a 1800 ovejas mestizas, 10 caballos y 1 yegua de uso del Establecimiento, corrales de ovejas y caballos etc.

Titulos de primer orden.

Por mas informes, ocurrir a nuestra casa, 78 Alsina.

NOTA—Las personas que deseen asistir al remate pueden salir el Sabado 24 en el primer tren, y encontraran carruages en la Ensenada para llevarlos al Establecimiento donde se efectuara el remnte.

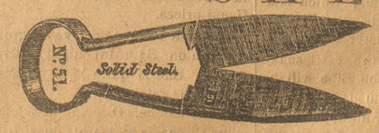
SHEEP SHEARS



John Sorby's No. 50 and 51, marca "OVEJA"
Are the very best imported. Upwards of 4,000 Sheep could be shorn with a single pair and if carefully put away after shearing, will serve for the next season.
All these shears are sold in all respectable stores in Buenos Aires and Camp Towns.

A LITTLE SUPPER ON BOARD THE ELBE.

This is some of that doctor's infernal nonsense!' said the Captain, after a long and earnest scrutiny of the dish which he had waylaid in its passage from the galley to the saloon; 'you'll all be dead before morning!' And with this profession of faith, went back to his cabin on deck in expectorative disgust.

It was the night after we left Bahia, Nov. 12th, on which I had the honour to entertain a small but highly select supper party. Highly select, by reason of its including our only lady passenger; while that it was small may have been due to the circumstance that the 'menu' consisted solely of a curried rattlesnake. Many others were bidden to the feast, but did not come.

The fact is, I wanted some crotalus venom for certain experiments. Now, there is nothing like having it on draught when required, fresh from the live reptile; but since we never—that is to say, hardly ever—have living snakes on board ship, it devolved upon me, when I found myself in possession of a live rattlesnake six feet long, to kill it before leaving that beastliest of marketplaces at Bahia where I bought it. So, with some little difficulty, I fixed its head and severed it from the body, encouraged meanwhile by the freely expressed opinions of about two thousand bystanders who had assembled to watch the operation; packed it in two separate parcels; and hurrying off to the steamer, handed the major portion, on which the rattle still vibrated faintly, over to the cook—to be by him skinned, de-tailed, excavated, cut up, cut down, and otherwise ordered by the mysteries of his art for its curried resurrection at 9 p.m. For though I had eaten or tasted anaconda, viper, tegueixin, iguana, monkey, armadillo, rat, mole, hedgehog, shark, Chinese bird's nests, squirrel, opossum, agouti, tapir, frogs, slugs, alligator, snails, casual cockroaches and a River Plate ham, I had never before ventured on rattlesnake.

Nine o'clock went on to half past, and still no curry appeared. The merriment with which we had congregated somewhat flagged, and Carlisle took advantage of a brief lull to say unpleasantly that he believed our courage was oozing away, and that we were already repentant of our rash determination; which happened to be so near the truth that every body cherished a secret hope that the dish had come to grief. As somebody said afterward—'if anything had happened!' Only one medical man on board and only one clergyman, both of whom were 'partaking.' My proposal, when it arrived, that the dog should have a bit, was promptly negatived by his mistress on the ground that Paddy didn't like curry—though that came as an after-consideration—so there was nothing for it but to sit down and plunge 'in medias res' at once. I am sure our lady guest thought that the polite amenities could very well have been superseded on this occasion when she was served first, but she was very brave and did'nt say so; indeed, everybody took an extraordinary time to unfold his napkin, adjusted the position of his bread, forks and glasses with minute precision, and betrayed an unholy solicitude for unwonted condiments and concomitants which had to be fetched from afar. A general pause, indicative of waiting for grace to be said, caused all eyes to turn towards the parson; to judge, however, from the expression of his countenance at that moment, the reverend gentleman seemed to be offering up an inward agonised prayer of anything but gratitude on his own account. 'Why doesn't somebody begin?' said somebody else, and the spell was broken; to our credit be it observed no one drew back, though all hesitated. It was suggested that, in accordance with the eternal fitness of things, the only winner at whist, to whom we all owed points, ought to take the first mouthful; but he made the unfeeling remark that life was sweeter than ever to him now, and wouldn't. I was all right; the steward, having known me a long time, evidently esteemed me as of more value than many passengers, and brought the compound to me with manifest reluctance last of all. Then, as all the misdoings of our past lives rose in review before our mental vision, we shut our eyes and began silently and simultaneously.

Well, it wasn't bad. There was nothing objectionable about the flesh, and I am afraid that is the highest praise which can be awarded to it. The flavour, of course, was compared to that of chicken—these things always are—which is about equivalent to saying that it had no flavour at all. In fact, as far as tastelessness went, it might have been any one of those dear old Royal Mail dishes that I have been eating with such signal preservation of existence for the last seven years. The eggs, though, were really nice—I forgot to tell you that we were presented with a delightful surprise in the form of nineteen eggs, each as big as a pigeon's, no shell but enclosed in a thin membrane, and filled with a rich red, apparently homogeneous yolk. These had a distinctly characteristic flavour in them, not unlike a turtle's egg, but unfortunately they were cooked too hard. How would an omelette of rattlesnake's eggs be? Those of the crested iguana make a very palatable one, as I can testify from practical experience thereof on more than one occasion. The enormous number of fine white bones proved the great drawback to our dish; those several hundred pairs of loose ribs with which the 'Crotalidæ' are endowed, however admirably they may be designed for the reptiles powers of locomotion and deglutition, are not equally subservient to its worth as a curry. That was how the skipper 'spotted' the real nature of the concoction; he said he saw fangs in it. Like most descendants of Eve, first female student of ophiology (why didn't she curry him at once!) he regards the serpent tribe with no greater favour, and has not been delivered from much false doctrine, heresy and schism concerning them. But he doesn't examine every bottle of 'Hot Pickles' that comes on board in Pernambuco, nor the cases of 'Feather Flowers' and 'Guava Jelly' sent off to me at Bahia—luckily!

What a pity our friends on board the 'Trent' could not stay and spend the evening here to share our little festivity. Six of us sat down to supper; but I don't think we ate twelve inches apiece, and am convinced that if sixty had surrounded the board there would still have been enough for all.

This rattlesnake had seven fangs—two true or functional and five supplementary ones—and the five pseudo-fangs have been mounted in a morrocco case and presented to the lady who so courageously faced the meal, as a souvenir of her first snake supper. First, I say; for I have pledged myself to give her and her husband a whole snake dinner some day—viper broth, as I have tasted it in Brittany, for soup, *Hydrophidos* as fish, python cutlets, boas boiled and roast, &c., and another Crotaline curry, as far as opportunity admits—and they have pledged themselves to come. Let me advise any homeward-bound reader of the *Standard* to break the monotony of the voyage and its *cuisine* by going ashore in Bahia and investing in a reptile or two as a relish for supper. Rattlesnakes are rather too expensive ever to come into vogue as a common article of diet, a fair-sized one costing three or four pounds; but boas, anacondas and green iguanas may always be purchased there. There is no danger, whatever, in eating venomous serpents if their heads are cut off; the latter may be dried or preserved in spirits of wine, and in either form would always be received most gratefully by

Your disiute ested servant,

Arthur Stradling.

Conserving Salt.

Mark, 'Corona'.

Patented by the Governments of Germany, Austria-Hungary, Belgium, United States of America and other countries.

Prized in 16 Exhibitions in Europe, America and Australia.

The patented Conserving Salt is preferable to all other existing antiseptics because,—

1. it is a real chemical combination and no mechanic mingling of different Salts;
2. it thoroughly combines with the object to be preserved;
3. it is very easily applied and produces a quick and lasting effect;
4. its application leaves no disagreeable smell behind and even the choicest aroma is not influenced by its taste;
5. its application is not expensive;
6. and above all it is in no way detrimental to health, because it is entirely free of Salicine Acid and the like substances;
7. it is easily solubie in water and must for that reason be kept in a dry place.

Preserves every sort of meat, intestines and poultry, fat, tallow, fishes, milk, butter, cheese, fruit and all objects easily disposed to fermentation.

Banco Hipotecario.

Esta abierto al servicio publico todos los dias de 10 de la mañana desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f.2000 ni el prestamo menos de $f. 500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, (6 0/0 actualmente) & amortizacion, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que el presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dan 6 o/o de interes 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y expresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituyan el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f.50 que es el minimum de las que emite el Establecimiento.

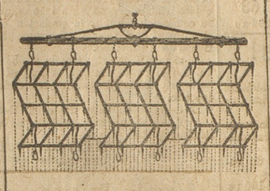
HOWARD'S CELEBRATED HARROWS

Howard's Iron Harrows.

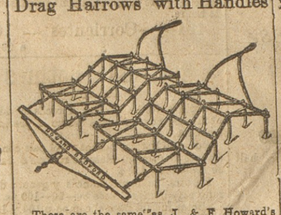


These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted for all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose, and unlike Colonial-made imitations they can be readily taken out for repair.

The following are some of the most useful sizes:—

No. 11, for two or three animals, 10 feet wide, weight 7½ cwt.....
No. 12, for two animals, 9½ feet wide, weight 7 cwt.....
No. 14, for one or two animals, 8½ feet wide, weight 1½ cwt.....
No. 20, for one animal, 7½ feet wide weight 1 cwt.....

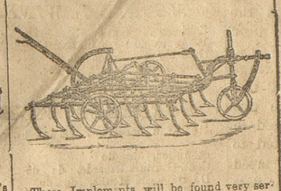
Howard's Drag Harrows with Handles



These are the same as J. & F. Howard's ordinary Drag Harrows, but furnished with handles, by which convenient arrangement the tines can be pressed into the ground, or lifted out to clean them, as occasion may require.

H 16, a pair of 4-beam Harrows, with whippletree, 9½ feet wide 3½ cwt.....
H 16, a pair of 3-beam Harrows, with whippletree, 7½ ft. wide, 3 cwt.....
H 17, a pair of 4-beam Harrows, with whippletree, 9½ feet wide weight 3 cwt.....
H 17, a pair of 3-beam Harrows, with whippletree, 7 feet wide weight 2½ cwt.....
H 23, a pair of 4-beam Harrows, with whippletree, 8 feet wide, weight 2½ cwt.....

Howard's Self-Lifting Wheel Harrows



These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allows of ready adjustment for harrowing the land deeper or shallower as may be required.

L 1, for two light animals, with 12 tines, 4 ft. wide, weight 3 cwt
L 2, for two or three animals, with 17 tines, 4½ feet wide, weight 3½ cwt.....
L 3, for three or four animals, with 23 tines, 5½ feet wide, weight 4½ cwt.....
L 4, for four animals, with 25 tines 7½ ft. wide, weight 6½ cwt..

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually cracks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir, we embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera:—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION.—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that out West eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blancmanges, &c., at half the usual cost, and in much less time. The hens had best be cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the most little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow rank next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 36 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.
